

## Destination of our pupils (School Leavers 2022)

Last year our Year 11 pupils moved to a range of providers in the local area after leaving school:

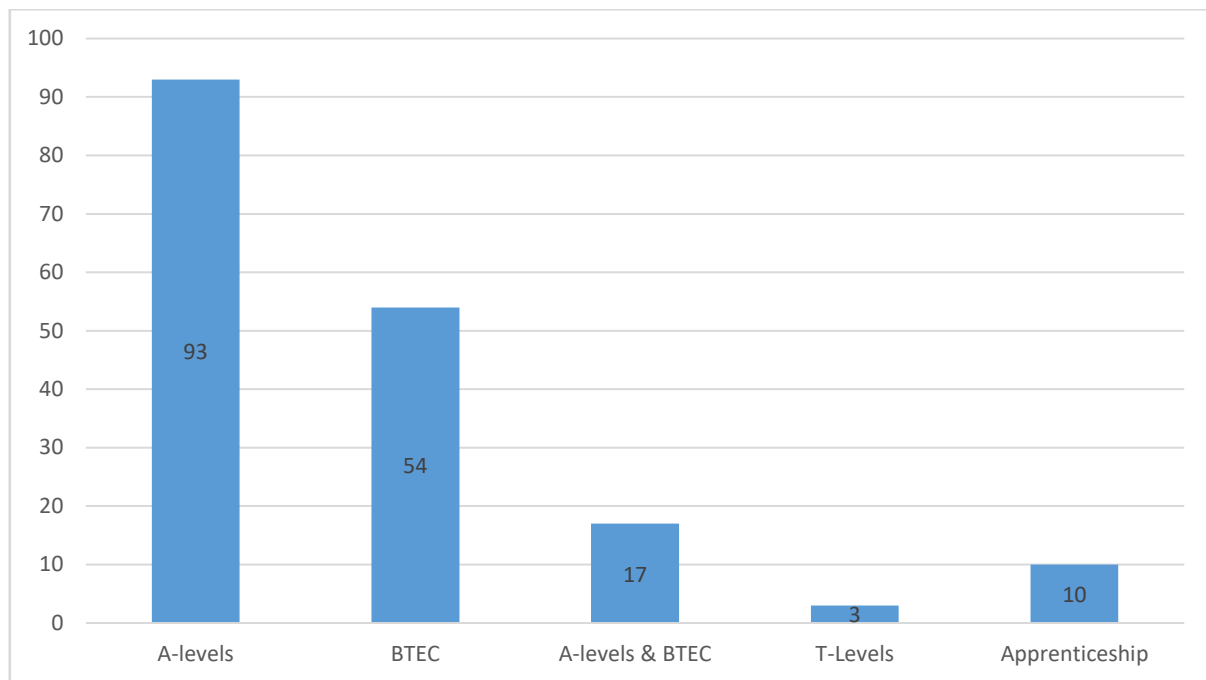

The number of destinations has increased post Covid and indicates that our pupils access a large number of destination options as part of their CEAIG Education. Over 50% continue to move to Cardinal Newman College and in this cohort there has been an increase in numbers moving on to Preston College.

## Level of Study

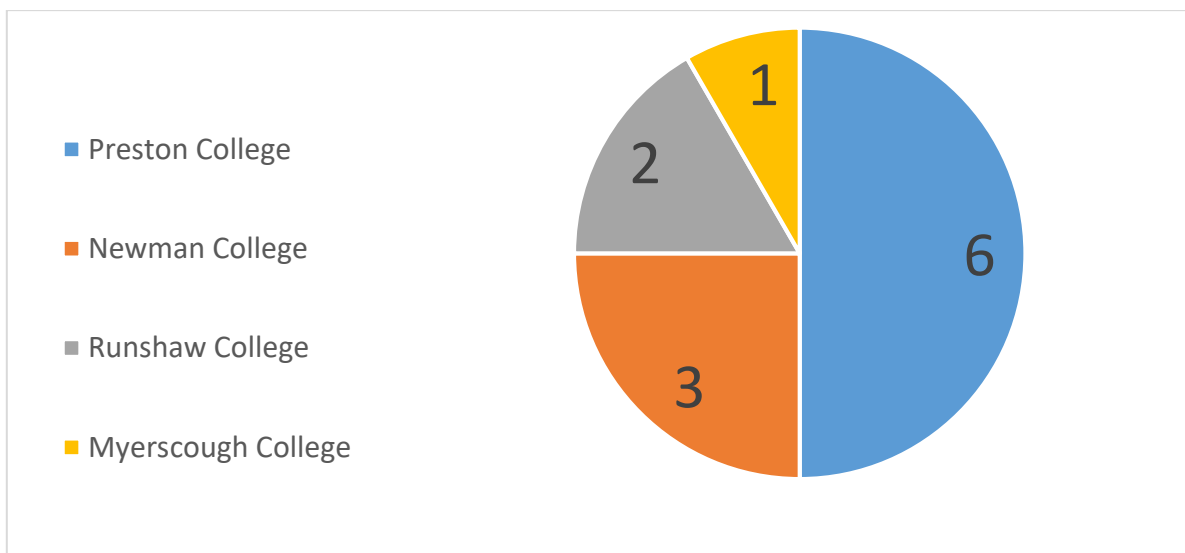

The cohort overwhelmingly went on to study courses at Level 3 as is appropriate for the intake ability of this cohort. All Level 1 and 2 courses were appropriate for the individual pupils.

## Courses Studied

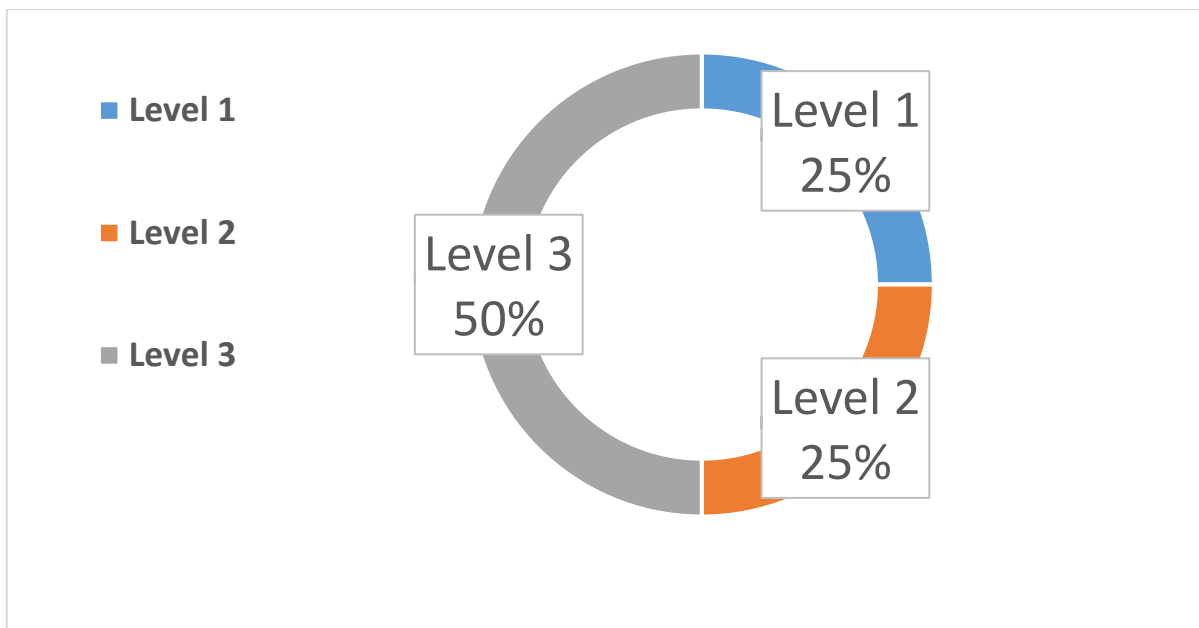

The graph shows the number of pupils who went on to study different types of courses at KS5. A Levels continues to be the most popular option. T Levels remain relatively low despite significant levels of education with the pupils on their characteristics. Apprenticeships remain quite low although more pupils applied for apprenticeships and received positive feedback. These pupils reported that the apprenticeship positions were often given to older candidates.

## SEND Institutions of Study

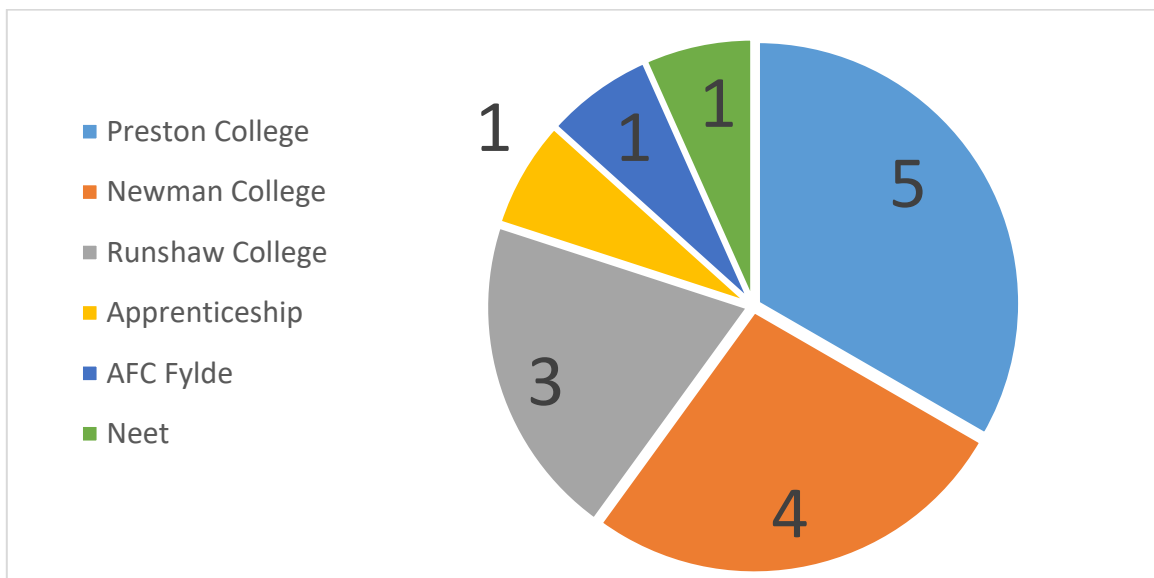

Preston College remains the most popular destination for SEND pupils. All SEND pupils receive one to one CEAIG education to give specific support when choosing their destination and choices of study.

### Level of Study- SEND

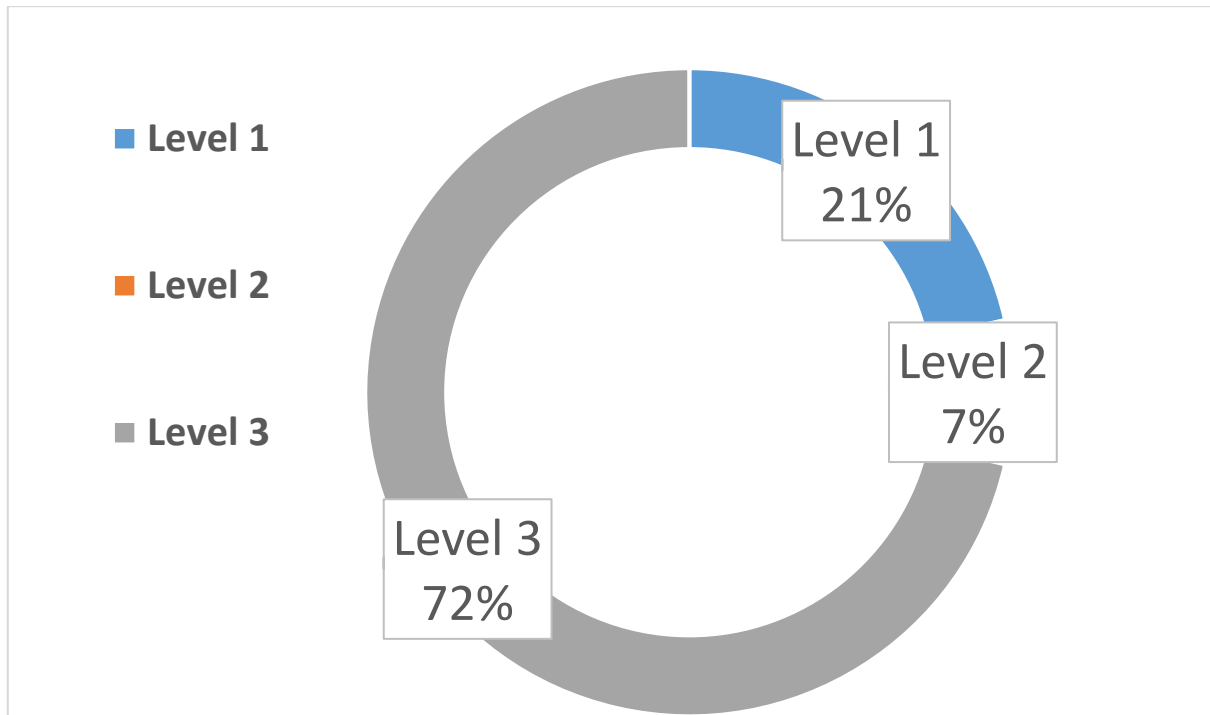

50% of SEND pupils continue their education at Grade 3. Where pupils study at Grades 1 and 2 it is appropriate to the needs and abilities.

### Disadvantaged Pupils –Destinations

The graph shows a significant variety of KS5 destinations with pupils selecting the right place for their next stage of study.

## Level of Study – Disadvantaged Pupils

Almost 75% of our disadvantaged pupils went on to study at Level 3.
